

Personal Profile of Mr Roland Bartsch of Alpha Uranium Ltd

Name: Mr. Roland Bartsch

Position: Managing Director

Brief Career Background: Mr. Bartsch is a geologist with over 25 years experience in the mineral exploration and mining industry. His professional experience is global, having worked throughout the Americas, Australia, Indonesia, Solomon Islands, Greenland, Europe, Africa and Asia.

Mr. Bartsch's technical expertise includes geological modeling, exploration conceptual targeting, and program management and design, for a diverse range of commodities including gold, base metals, uranium, coal, diamonds, talc in a diverse range of geological environments.

He has a broad practical hands-on mining and exploration expertise and senior management experience from having worked with companies such as Western Mining Corporation, Etheridge Henley William Geoscience Consultants, and SRK Consulting Engineers and Scientists.

What He Enjoys About His Work: Mr. Bartsch is passionate about exploration. It is his passion for geology that drives him. He enjoys getting out in the field and doing hands-on work to develop concepts that could lead to discoveries. "It is my passion, my hobby," he said.

The Challenge of His Work: Mr. Bartsch said the real challenge in his work is the search, but when successful he thinks the reward is worth the effort. For the moment he believes the greatest challenge is getting the equipment and people to their projects to deliver results.

Philosophy: "I have very high expectations in terms of work ethic and commitment to achieving what we set out to do. Not only do I have these expectations in others, but I have them for myself, too."
