### 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

#### Basis of Preparation

The half-year consolidated financial statements are general purpose financial statements prepared in accordance with the requirements of the Corporations Act 2001, Australian Accounting Standard AASB 134: Interim Financial Reporting, Australian Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board.

It is recommended that these financial statements be read in conjunction with the annual financial statements for the year ended 31 December 2011 and any public announcements made by Strategic Minerals Corporation NL and its controlled entities during the half-year in accordance with continuous disclosure requirements arising under the Corporations Act 2001.

The accounting policies have been consistently applied by the entities in the consolidated group and are consistent with those in the December 2011 financial report.

These half-year statements do not include full disclosures of the type normally included in the annual financial statements.

### 2. COMMITMENTS

The Group has annual minimum obligations in relation to maintaining its granted tenements in good standing. There have been no changes in commitments since the last annual reporting date.

### 3. SEGMENT REPORTING

The accounting policies used by the Group in reporting segments are in accordance with the measurement principles of Australian Accounting Standards.

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors. The Board of Directors has identified the operating segments based on the main minerals of the members of the Group.

The two main mineral types of the Group are Uranium and Gold. The Uranium projects are held within the subsidiary Alpha Uranium Pty Ltd and the Gold projects are held in Strategic Minerals Corporation NL.

Segment assets include the cost to acquire the tenement and the capitalised exploration costs of those tenements.
